

YBSB2008 - Web Design Lab Exercises

Building a Personal Academic Web Page with HTML

Objective: In this assignment, you will create a structured personal academic webpage using basic HTML tags, text formatting, media elements, links, lists, and navigation components learned in this course.

Part 1 — Basic HTML Page Structure

Create a file named:

```
mis_profile.html
```

Your page must include the **basic HTML document structure**:

- `<!DOCTYPE html>`
- `<html>`
- `<head>`
- `<meta charset="UTF-8">`
- `<title>`
- `<body>`

The `<title>` should be meaningful, for example:

```
MIS Student Portfolio
```

Part 2 — Page Header

Create a **header section** that contains:

- A main heading `<h1>`
- A short introduction paragraph `<p>`

Example content:

```
<h1>My MIS Learning Journey</h1>
<p>This page introduces my interests in Management Information Systems and
web technologies.</p>
```

Part 3 — Navigation Menu

Create a navigation menu using the `<nav>` element.

The menu must contain **at least four links**.

Example pages:

- Home
- About
- Courses
- Contact

Example structure:

```
<header>
<nav>
<a href="index.html">Home</a> |
<a href="about.html">About</a> |
<a href="courses.html">Courses</a> |
<a href="contact.html">Contact</a>
</nav>
</header>
```

Part 4 — Text Formatting Section

Create a section describing **your interests in technology or MIS**.

Use at least **three paragraphs** and apply the following formatting tags:

- `<b>`
- `<i>`
- `<strong>`
- `<em>`
- `<mark>`
- `<small>`
- `<sub>`
- `<sup>`

Also include:

- one horizontal line `<hr>`
- one line break `<br>`

Part 5 — Lists

Create **two different lists**.

Unordered List

Example topic:

My Favorite Technologies

Use `<ul>` and include at least **five items**.

Example technologies:

- Python
- SQL
- HTML
- Machine Learning
- Data Visualization

Ordered List

Create another list showing:

Steps to Build a Web Page

Use `<ol>` with at least **five steps**.

Part 6 — Image Section

Add an image using the `<img>` tag.

You must include the following attributes:

- `src`
- `alt`
- `width`
- `height`
- `title`

Example:

```

```

Part 7 — Hyperlinks

Add at least **three different types of hyperlinks**.

1. External website link
2. Email link
3. Phone link

Example:

```
<a href="https://www.istanbul.edu.tr" target="_blank">Visit Istanbul University</a>
```

```
<a href="mailto:student@example.com">Send Email</a>
```

```
<a href="tel:+901234567890">Call Me</a>
```

Part 8 — Favicon

Add a **favicon** to your webpage.

Inside `<head>` add:

```
<link rel="icon" type="image/png" href="favicon.png">
```

You may generate icons from:

<https://favicon.io>

Part 9 — Creating an HTML Table

In this section, you will create a **structured HTML table** that presents information about **MIS courses or technologies you are learning**.

Your table must demonstrate the use of **semantic table structure**.

Requirements

Create a table that includes the following elements:

- `<table>`
- `<caption>`
- `<thead>`

- <tbody>
- <tfoot>
- <tr>
- <th>
- <td>

Table Content

Create a table titled: MIS Courses This Semester

Your table should include **at least five rows of data**.

Example columns:

- Course Name
- Instructor
- Credits
- Technology Used

Required Table Features

Your table must also include the following attributes:

- border
- width
- align

Use the following **cell attributes at least once**:

- rowspan
- colspan

Bonus Challenges (Optional)

Students who complete these tasks receive bonus points.

1. Create a nested list.
2. Insert an image inside a list item.
3. Add a hyperlink inside a list item.
4. Create a second navigation menu in the footer.
5. Add a blockquote section with a technology quote.
